7TH NATIONAL Borderline Personality Disorder Awareness Conference

'From stigma to strength'

The National Borderline Personality Disorder Conferences plays a significant role in correcting damaging myths and stigmas and highlighting the strength of everyone involved in improving treatment, care and support for people with BPD and their families and carers.

The forum will be held at the Bendat Community Centre, Western Australia overlooking the picturesque Lake Monger.

Featuring keynote speaker

Professor Andrew Chanen (Vic)

Head, Personality Disorder Research at Orygen National Centre of Excellence and Past President of the International Society for the Study of Personality Disorders (2011).

Professor Chanen appears with an incredible line up of local and national experts, all passionate about improving treatment, care and support for people with BPD and their families/carers. This conference has a program of interest that will provide something for everyone!

A pre-conference workshop for Mental Health Professionals will be held on the 17th October, in Perth.

Registration ESSENTIAL for both events

Sponsorship & Exhibitor opportunities also available
